

The State Universities Civil Service System has eliminated the typing test for all civil service examinations. The effective date for this change was December 15, 2015.

All civil service exams with a typing requirement used by our campus was impacted by this change. Some of these testing registers were voided and others were not. Voiding was dependent upon whether or not the typing component was simply a pass/fail screen-out element or if it was tied to a point value within the exam score. Void notices were sent to anyone who had an active score on the specific register.

If you would like to discuss how this change may affect you, please come by the Human Resources office and talk to a member of our staff.
